EDUCATION

Bachelor of Computing - Computer Science   *Sep 2020 – Apr 2025*
University of Guelph, Guelph, ON, Canada

- Relevant Courses: Algorithms Analysis, Data Structures, Object-Oriented Programming, Software Engineering, App Development and Design, Databases, Cryptography, Statistics, Compilers

WORK EXPERIENCE

Software Consultant & Solutions Engineer   *Feb 2022 – Aug 2024*
GoHighLevel (Part Time Remote)

- Developed and maintained 40+ full-stack solutions using JavaScript, React, SQL databases, and REST APIs.
- Integrated 5+ third-party APIs to automate lead intake, messaging, and CRM workflows.
- Designed end-to-end data pipelines ensuring reliable data persistence and synchronization.
- Debugged and resolved production issues across dozens of live deployments, improving system reliability.

PROJECTS

Budget & Investment Planner Web App   *Jul 2021 – Aug 2021*
HTML, CSS, JavaScript

- Built a responsive web application performing deterministic budget calculations and investment projections, including a month-by-month compound growth calculator with live client-side updates.

GeoJobSearch   *Sep 2024 – Dec 2024*
React, React-Leaflet, Spring Boot, MariaDB, Python, Docker

- Built a full-stack job search platform with a React map-based UI, Spring Boot REST API, MariaDB persistence, and a Dockerized Python Selenium/BeautifulSoup scraping pipeline supporting location and radius filtering.

Habits   *Jan 2025 – Present*
Swift, iOS,

- Developing a native iOS habit-tracking application in Swift, implementing goal creation, progress tracking, reminders, and MVC-based state management.

SKILLS

Languages	Java, Python, JavaScript, C, SQL, Swift, R
Tools/Frameworks	React, React-Leaflet, Spring Boot, Flask, REST APIs, MariaDB, PostgreSQL, MongoDB, Docker, Docker Compose, Git, GitHub, Linux, AWS (EC2, RDS basics)

CERTIFICATES

Cisco Networking Academy   *May 2024 - Dec 2024*

- Computer Hardware Basics, Operating Systems, Data Analytics, Cybersecurity Essentials, Networking Essentials
